

TRANSPERFECT CASE INTERACTIVE

Electronic Case Site Services
For Secure Online Collaboration

Here's what our clients are saying:

“We have used your competitor’s services, and frankly your site is faster and easier to use, not to mention more cost effective. Our clients will appreciate that.”

“Your help desk is absurdly responsive—especially for 3 am on a Saturday.”

“Thanks again to you and your team. ‘Best ever diligence process’ is the only way to describe our experience.”

WHY TRANSPERFECT?

Simplicity and speed. **User-friendly design**, combined with optimized technology for **high-speed document transfers**, make TransPerfect Case Interactive electronic case sites (ECSs) a simple, streamlined solution for the litigation process. TransPerfect ECSs enable you to securely host and access litigation documents such as current pleadings, correspondence, and other case-related material, thus speeding up the way in which due diligence is conducted.

KEY FEATURES

- **Security** – Your ECS is hosted in a SAS 70 Level II compliant facility and is encrypted with multiple layers of security and audit controls including:
 - Viewing restrictions for selected documents by individual users or groups
 - Dynamic watermarking to stamp user name and date/time
 - Optional click-through user-definable confidentiality agreements
 - User and group security modification functions
- **Ease of Use** – Site deployment requires minimal training for users and administrators. Designed to reduce extra mouse-clicks and data-entry screens, TransPerfect Case Interactive allows users to save time and minimize the risk of errors.
- **Convenient Organization** – Profile documents to categorize pleadings and correspondence by document type, category, or action.
- **24/7 Support** – Average response time of **under three minutes**.
